

**short tour description/route characteristics:**

The Black Forest is an ideal motorcycle area!  
The ascents to the heights and the descents down to the valley offer endless curve fun.  
The roads are mostly not very busy and you can let your heart (and your gas hand) run free.

The tour leads first on a small road steeply uphill and then just as steeply down into the Kinzig valley. A detour in Schiltach is worthwhile for everyone! The market place with its wonderful half-timbered houses - simply beautiful! .

**Black Forest North**

Via Reinerzau we continue in the direction of Freudenstadt. Before that, however, the route leads steeply downhill in the direction of Wolfach and then just as steeply uphill to the Black Forest High Street. Freudenstadt is bypassed on the left and via Baiersbronn,

Besenfeld and Erzgrube (Nagold dam). Via Kaltenbronn the route leads to Gernsbach, past Eberstein Castle towards Baden-Baden. The subsequent path over the Rote Lache to Forbach - a pleasure! But it goes on immediately! Turn right towards the Schwarzwaldhochstraße, along the Schwarzbachtalsperre, down to Bühlertal. Again up to the Schwarzwaldhochstraße and down to Sasbachwalden, via Seebach up again! Immediately downhill again to Allerheiligen and Oppenau, via Bad Peterstal further towards Wolfach. Finally - on small roads - up to the Brandenkopf (observation tower) and via Hausach back to the starting point
