

Southern Black Forest 2:
to the open air museum
Vogtbauernhof
About 240 km

Tour description / route

characteristics:

The route first leads through the Albrück valley to St. Blasien. The Albrücktal is one of the most beautiful motorcycle routes in the whole Black Forest! After St. Blasien the route continues to the Schluchsee. Shortly afterwards a road branches off to the right and we follow it to Lenzkirch. There it goes first right and then immediately left to Kappel and Neustadt. There we turn left and shortly after right to Vöhrenbach. Via Unterkirnach, Oberkirnach and Obertal we reach Triberg. There turn right and continue towards Wolfach. Through

Hornberg and passing through Gutach you reach the open-air museum Vogtbauernhof. Here the typical farmhouses from all regions of the Black Forest are set up and are worth an extensive visit.

Afterwards you go back to Gutach and shortly after the village turn right towards Oberprechtal. The route is simply a dream! The route continues to Schonach. There turn right to Schönwald. The route continues right for over 20 km on the B 500 via Furtwangen until the turn-off to Jostal (turn right). Just before Neustadt turn right to Tittisee. Through the village, along the lake of the same name, you come back onto the B 500 (direction Schluchsee). Turning right at the beginning of the lake, you reach St. Blasien via Äule. Turn right towards Todtmoos and after 3 km turn left again towards Dachsberg. Via Wolpadingen and Hierbach you reach - turning right - Rotzingen and Görwihl back to Rüßwihl.
